

Rohan Bista

IT Professional | Software Development | Networking

ABOUT ME

BCA graduate with practical experience across software and web development, networking, WordPress, technical support, and IT operations. Hands-on experience includes building frontend and full-stack web projects, developing mobile and academic applications, managing WordPress sites, and working with ISP network operations. Comfortable with modern development tools and technologies as well as documentation, data management, Microsoft Office, and user support.

EXPERIENCE

Computer Operator JUNE 2019 - JAN 2021

Prepared documents and managed data using Microsoft Office 365. Maintained records, handled typing tasks, and provided office support.

Network Intern SEP 2025 - DEC 2025

Assisted with network monitoring, In Enterprises and troubleshooting. Worked with routers, switches, and ISP network operations.

Frontend Developer (Independent) OCT 2023 – Present

Designing and building frontend and full-stack projects independently, including client websites, College projects & e-commerce platforms.
